

Dikkumburage Okith Moksha Ranaweera

Mobile Application Developer & Full Stack Web Developer

[GitHub](#) | [LinkedIn](#) | +94767400728 | okithmoksha@gmail.com

Technical Skills

- **Programming Languages:** Dart, JavaScript, Python, SQL, HTML, CSS
- **Frameworks & Libraries:** Flutter, Node.js, React, Android SDK
- **Tools & Platforms:** Git, GitHub, Firebase, Google Drive API, Google reCAPTCHA v3, Google AdSense
- **Graphic Design:** Visual branding, digital asset creation, digital photo editing, and promotional media layout

Key Projects

[Focus Track](#) | Mobile Productivity Application

- Designed and developed a complete cross-platform productivity application using **Flutter** and Dart.
- Successfully launched on the **Google Play Store**, scaling the active user base to over **10,000+ downloads**.
- Implemented robust local data persistence, optimized state management, and designed a highly responsive UI/UX.

[Hidden Note](#) | Anonymous Interaction Web App

- Developed a full-stack web app using Firebase for secure, passwordless sign-in via **Firebase Auth (Google OAuth)**.
- Secured public endpoints against spam bots using **Google reCAPTCHA v3** and built an **HTML canvas** engine to auto-generate styled gradient text-cards for social sharing.
- Implemented a public/private reply privacy toggle and successfully integrated Google **AdSense** for monetization.

SyncStory | Audiobook Synchronization App (Under Development)

- Building a specialized utility app using Flutter to manage and synchronize local and cloud audiobook states.
- Integrated the **Google Drive API** for secure cloud backup and implemented custom JSON data merging logic to resolve multi-device sync conflicts.

Education

Bachelor of Computer Science (Undergraduate)

- University of Ruhuna, Faculty of Science | Expected Graduation: 2028
- **Relevant Coursework:** Rapid Application Development (Design Patterns), Internet Programming, Advanced Database Management, Software Engineering, Data Structures & Algorithms, Object Oriented Programming, Data Communication & Computer Networks.

G.C.E. Advanced Level Results:

- ICT: A | Combined Mathematics: C | Physics: C

Certifications & Achievements

MoraForesight 1.0 Alumnus | IEEE Student Branch, University of Moratuwa

- Selected among the top 100 technical delegates island-wide from over 2,500+ applicants to complete a fully funded, 3-day residential intensive bootcamp focusing on advanced programming, technological innovation, and tech-entrepreneurship.

Python for Beginners Certificate | University of Ruhuna

- Earned verified academic certification validating core algorithmic problem-solving foundations and Python scripting syntax basics.

Experience & Leadership

Technical Team Member / Organizer | Animus 1.0 CTF (Capture The Flag)

- Currently collaborating on infrastructure setup, technical challenges, and digital assets for an inter-university cybersecurity competition.

Media & Photography Unit Member | Infocur

- Managed live stream coordination, visual branding elements, and promotional media setups for major faculty competitions and events.
